The very best medicine for the relief and cure of chronic coughs and bron-chitis; dry, harsh throat coughs; irritating coughs of grippe and consumption; whooping cough; croupy coughs of children, is Angier's Petroleum Emulsion.

It southes and heals the inflamed and irritated mem-branes of the throat and air passages, promptly relieves the cough, removes foul mu-cus, makes breathing easy, and puts the respiratory and puts the respiratory organs in a strong, healthy condition, so that they are able to resist further attacks. It is pleasant to take, agrees with weak stomachs, aids di-gestion, and has a healthful action upon the bowels. action upon the bowels.

A Great Wreck of Clothing Prices

Do you know the kind of Suits and Overcoats we will sell now for \$7.50, they are 00, \$10.09 and \$10.50 garments. Have you seen some friends wearing one of our \$15 Suits and Overcoats which you admired, or did you buy one yourself a couple of months ago? You can get one now for \$12 or some of them for \$10.50. That's exactly what this sale gives you an opportunity to do, and it is your own fault if you don't do it. We can't afford to carry Winter goods over, so we would rather lose on them and let you make on them now. Oh, Yes! some storekeepers advertise cut prices all the year, lose money all the time, are in business for fun, etc., but we don't do it that way. Twice a year and for a few weeks each time, we can afford to and we do sacrifice profits.

This is our time to lose, as we want to make room for new Spring Goods which are arriving daily. Don't fail to take advantage of this situation.

Consumption's Small Beginning

No matter how strong you imagine yourself to be, if you are not breathing plenty of good air every day, if you are over-working, keeping late hours, or in any way using up your energies faster than they are repaired, you are making it easier for consumption to come into your lungs. This is the small beginning.

Let your own good sense and your doctor prescribe your habits and the necessary medicine For nourishment nothing will do you more good than Scott's Emulsion. It contains elements which you cannot get from ordinary food and is rich in the best materials for making good blood.

Scott's Emulsion is a wonderful -food; it furnishes a great deal of nourishment though you take so little of it. That little enables the body to overcome wasting and to build up the run-down and worn-out tissues. Moreover Scott's Emulsion is a great flesh-builder, and when the consumptive can gain flesh he is getting the upper hand. We'll send you a sample free upon request.

Cut All To Pieces

A Great Wreck of Clothing Prices

Do you know the kind of Suits and Overcoats we will sell now for \$7.50, they are 00, \$10.00 and \$10.50 garments. Have you seen some friends wearing one of our \$15 Suits and Overcoats which you admired, or did you buy one yourself a couple of months ago? You can get one now for \$12 or some of them for \$10.50. That's exactly what thissale gives you an opportunity to do, and it is your own fault if you don't do it. We can't afford to carry Winter goods over, so we would rather lose on them and let you make on them now. Oh, Yes! some storekeepers advertise cut prices all the year, lose money all the time, are in business for fun, etc., but we don't do it that way. Twice a year and for a few weeks each time, we can afford to and we do sacrifice profits.

This is our time to lose, as we want to make room for new Spring Goods which are arriving daily. Don't fail to take advantage of this situation

Don't Forget This,

Look here young man, if you want to keep your body sound and strong you've got to feed it right.

A sound body means healthy spirits and right spirits make a clean mind easy.

So you see your feeding is important.

Don't cheat your stomach of its work. Eat food that's got to be digested-that nourishes when it is digested.

Eat. Tillson's Oats-never mind if it is just oatmeal-its the best catmeal in the world, and many a good man has had little else but oatmeal to build a big body and a strong mind on,

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-tc-wear or made-to-measure clothes for men than the inside work and materials.

The inside work coants most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's oluthes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Foncy Worsteds, and plain Blue and

Black musbeared clothes. All exclusive tailors' fabrics. They are all fashioned in the latest Sacque Styles and fit performs, that you can see for yourself and on a man thry can't be distinguished from made-to-necture garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

NEURALGIA

If a person has neuralgia in his system this is the season when it will be felt. It is an ailment that may spring from a variety of sources. Anæmia or any depressed state of the bodily functions are frequent causes. The exhaustion resulting from rheumatism also makes it easy for neuralgia to get a foothold.

Scott's Emulsion has for years been recognized as a powerful agent for good in giving new life to the worn-out nerve centers and building up the weakened tissues which are responsible for neuralgia.

In Scott's Emulsion the pure cod liver oil is combined with hypophosphites of lime and soda, the latter contributing strength to the blood and bones.

As the principal mission of Scott's Emulsion is to give healthy, solid flesh, active tissue, pure blood and rich bone marrow it will be readily seen why Scott's Emulsion is so effective in driving out the causes of neuralgia.

COMPANY, Limited.

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's cluthes are a hit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced forean carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures. Overplaid Cheviots, Fige Fency Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat-est Sacque Styles and fit per city, that you can see for yourself and on a man they can't be listinguished from maded-oueanure garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, batter wear or lasting good shape in ready-tc-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unaheared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat est Sacque Styles' and fit perfectly, that you can see for yourself and on a man they can't be distinguished from made-to-near are garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

There is one way, and one only, in which ansemia can be cured, and that is by increasing the number of red corpuscles in the blood, or in other words, by instilling ring the blood the vital energy which is required to build new cells, conenergy which is required to build new cells, con-struct new tissues, and repair the wats offiving. Dr. Chase's Nerve Food accomplishes this result as no other perparation, ancient or modern, was ever known to do. It is not claimed that this food cure will do any other thing than create new red corpuscles in the blood, but in doing this it is a positive, through and lasting cure for the meat a positive, through and lasting cure for the meat afterila decrease that have ever come to the attention of the physicians.

attention of the physicians.

After all, it is the blood that carries life to the organs, repairs the waste and supplies the motive power for the machinery of the body, and when the blood greix pale, weak and watery, external restoratives of mature are happily combined in Dr. Chase's Nerve Food, so as to make it the greatest blood and nerve virilairer that the world has pointed in this great modern treatment. Gradually and throughly it replenishes the shriveled arteries and cestores vigor, energy and health to weak, worm and side bodies.

Declining years-the time when one is on the other side of the hill, call for constant care in the matter of nutrition. Life then depends so much on the body's power to repair loss and waste. This power grows less and less. The ability to shake off local disorders and to draw heavily on the body's reserve force are privileges that youth alone can claim.

With age comes slow movement, slower operation of the whole body's forces. Trifles become burdens and we live in the past. Ordinary food no longer nourishes. Poor teeth, perhaps, and improper mastication give the stomach work that it is not supposed to do-the digestion is taxed and even injured when it should be troubled least.

Many elderly persons get strength and nourishment from Scott's Emulsion It slips into the blood so quickly that the stomach is not aware of its presence. Not only does Scott's Emulsion furnish nourishment itself, but it helps to digest other food. It aids in the proper distribution of food benefits--simplifies the stomach's work.

Moreover, the lime and soda contained in Scott's Emulsion in the form of hypophosphites nourish the bones and reduce the acid in the blood which feeds rheumatism.

CHIE. COMPANY, Limited.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced forean carefully scrutinizes the inside work of every garment and the clothes man carefully scrutinizes the inside work of every garmen and that could be which bear the Quick & Robertson label are in this one detail equal, if which bear the Quick & Robertson label are in this one detail equal, if the contract of the country of the countr the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Foncy Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailons fabrics. They are all fashioned in the lat-est Sacque Styles and fit perfectly, that you can see for yourself and on a man they can't be distinguished from made-to-caute garments.

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

RITCHIE COMPANY, Limited

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure olothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's dothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mix tures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat-st Sacque Styles and fit perfectly, that you can see for yourself and on a man they can't be distinguished from made-to-measure garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to iew them. Exclusive agents for Johnston's fomous clothing.

Getting In Shape

"The Buttons Don't Come off."

'The Linings Don't Rip."

"They Hold Their Shape,"

"They Fit Like Custom Clothes."

The above remarks are some of the pleasant things we hear about our clothing. Now, where are you going to purchase your new suit? Talk this question over carefully; determine which store can reasonably do the best for you; which store is doing the best? Such talk will bring you here. We court discussion—investigation.

The New Baby

From the moment a child is born the question of nourishment becomes of great importance. A right start avoids a lot of trouble later on; it's so easy to begin right, too.

Many women cannot or will not-chiefly will not nurse their children. The best thing to do under the circumstances is to help the bottle babies all we can-they're at a big disadvantage at best. We know positively that nothing will do them more good than Scott's Emulsion—a few drops in the bottle. It seems to furnish just the right quantity and the right kind of nourishment needed for babies and growing children.

The women who are willing but unable to properly nurse their children will find Scott's Emulsion a great help-a two-fold help in fact. It has a direct and immediate effect, not only feeding and sustaining the mother, but insuring also a flow of rich, nourishing milk for the baby.

Thus Scott's Emulsion strengthens the mother and goes naturally through the milk and strengthens the child.

We'll send you a sample free upon request.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailors' fabrics. They are all fashioned in the latest Sacque Styles and fit pertodity, that you can see for yourself and on a man they can't be distinguished from made-to-had are garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's Ald. Green Gives Notice clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully sorntinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unabeared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat-est Sacque Styles and fit periodly, that you can see for yourself and on a man they can't be distinguished from made-to-non-neur

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

Hardly one man or woman in Belleville, we feel sure, but has felt interested and gratified to think that, efore the coming cummer is over we will have, only a few miles from we will have, only a few miles from this city, the most modern and up-to-date coment works in Cunada. That reads like a strong state-ment, but it is not lightly made When we have such an authority as Professor Curpenter, of Cornell University, declaring that the material at Point Ann is fitted to make better and chronor coment than the material found in any other place in the Dominion, so for as he bes seen it must be acknowledged that the Point Ann property less extraordinarily exceptional advantages. Is it not ateral to think that, with these advaninges, the gentlemen composing the Belleville Portland Cement Com-pany, Limited, will see to it that the morks, when built, will be in keeping rith the advantages possessed by their property? Of course it is. Our readers, also of course, know that a few weeks ago the contracts for all eatry machinery were awarded and construction work on the next pement works will soon begin.

of all, the hearty empiort of all Bello ville people, who have been asked for no favors, and who have all to gain and nothing to have all to gain and nothing to loss in this matter; and secondly, the opposition of inand secondly, the opposition of in-terested outside parties, who have much to lose and mothing to gain by seeing the works erected and operat-ed at Point Ann.

Some little time age an anonym tetter appeared in the Peterboro fact that the Point Ann works were shout to be built, and brought up the bogey of "over-production" as a reaepistle. The over-production burey has appeared and been laid so many times that people-sensible people that is now ocose to greet it with anything but a sarile of derision. The letter in the Peterboro Times was signed "Old Subscriber," and was only worthy of notice from the fact that many copies of the paper, with the article in question marked in blue pencil, were sent broadcast all over this section of the country. It was atones at any other place than lielleworks already constructed or is turse of construction were conde rd, "Old Subscriber," whoever he was, had no tears to shed for other towns and cities, every one of which send to excell the sulumn of en-

And why was the Belleville works thus singled out? .Was it not cause interested sarties know that the Point Ann proposition, vide Prof. Corpenter, was the most favorable me, and therefore, the m feared? You always find the most slicks under the best apple tree.

But the fact of "Old Subscriber's"

appearing in the Peterboro Times was not the worst part of the matter, A graticum connected with the Belleville Portland Coment Company tells us that he had oc-ension to travel in Western Ontario not lung ago, and he found in every ntle fence corner newspoper a reproduction of "Old Subscriber's" letter, with the signature left off. The little country papers are what is callides," that is to say the inside pages are printed in Toron e, and supplied to the country pubohers at so much per ream-"Old Subscriber" letter was printed n Toronto. The gentleman in queson went to the Toronto firm which printed the "potent insides" and offerred \$1000 for the name of the party Schoolber's" letter, but without sue cons. The printers were then threattore stuff of the some kind.

And so the matter stands

netpoica, is not published to "boom" the Coment Company, but simply in defence of an institution which sppears to have particularly bright prospects, and which, being evidently fair and above board, asking no favors from anybody, deserves, and about receive, fair play at the hands of both public and press of this city. Speak a good word for the Belic-

ville Portland Coment Company when you can. It appears to be a bona fide concern, with gilt-edged prospeets, and the fact that envious rivals have already began to throw obstacles in its way is about the best advertisement it could receive.

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no m re to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

RITCHIE COMPANY, Limited.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat-at Sacque Styles and fit per-reity, that you can see for yourself and on a man they can't be distinguished from made-to-acaute garmeds,

...... A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store, Examine the coats we are showing; a big ship. ment just received.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's House Will be Asked to Adjourn clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mix tures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unsheared clothes. All exclusive tailors' fabrics. They are all fashiosed in the lat-at Sacque Styles and fit perfectly, that you can see for yourself and on a man they can't be distinguished from made-to-measure garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

SPORTING COMMENT.

According to the Toronto Star, the Marlbores will send the following team to play Paris tomight: Goal, Geroux; point; Bellerose; cover, G. Earles; rover, Birmingham; right wing, Ferguson; lett wing, Reid. Mr. Gorrie, the regular intermediate goal-tender, it will be noted, has been reint to the stable. Of course his playing in the Markham tournament had nothing to do with the nothing to do with that,

A gentleman asks The Intelligencer to advocate the formation of a cricket olub in this city. The idea is certainly a good one. Time was, in earlier days, when the Belteville Oricket Club took a back arat for nome of the clubs in this district, why could not the old apirit be revivitied this summer? There is pleaty of good material, if There is pleaty of good material, if people could only be induced to take interest. A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity . of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

Our decorating is begot of a system of color and design properly combined, properly applied after correct and careful anticipation of that which is called Art Interior Decorating.

Interior Decorating means painting coloring tining paperhanging stenoding hard wood finating etc. and we have a staff of workmen under a designer and decorator capable of executing batter work than has heretofore been prevalent in Belleville.

Our designer will call at your home, take measurements of your rooms, submit color schemes and drawings of your indvidual rooms that you may see same practiculary complete.

There will need be no errors if you employ our ability, our methods and our goods, the cost will be quite as satisfactory as the work manship.

With many years experience in Wall Hangings and decorating we have yet to disappoint our first customer entrusting us with their decorating, and we have decorated individual homes in Canada of which the decorating alone cost \$3,000.

Every hour in the day you are using up nerve force, body tissue, blood cells, energy—everything that means health. Always taking away, always borrowing—do you ever pay it back? The thin body and pale blood say no; the reserve force is about gone. There is a general weakness and the body is run down. You have overdrawn your account; you must make up the deficiency, but how?

Scott's Emulsion makes it up with interest. It will clear you of the debt you owe health and give you a working surplus

of solid flesh, good blood and healthy tissues. In Scott's Emulsion the necessary element of fat is plentifully supplied in the most palatable and easily digested form. It enters the system quickly and without effort. There's no tax on the digestive organs—no strain on any part of the body.

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's clothes are a hit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully sorutioizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors.

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

SHORT TALK

Waterproof Coats

and Spring Overcoats Many people are becoming familiar with the necessity

of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

The everyday CHANCE WORK that is so often termed decorating cannot be much else than disappointing to the victim who has to pay.

Our decorating is begot of a system of color and design properly combined, properly applied after correct and careful anticipation of that which is called Art Interior Decorating.

Interior Decorating means painting coloring thating paperhanging, steneoling, hard wood finishing, etc, and we have a staff of workmen under a designer and decorator capable of executing better work than has heretofore been prevalent in Belleville.

Our designer will call at your home, take measurements of our rooms, submit color schemes and drawings of your indvid-al rooms that you may see same practiculary complete.

There will need be no errors if you employ our ability, our methods and our goods, the cost will be quite as satisfactory as the workmanship.

With many years experience in Wall Hangings and, decorating we have yet to disappoint our first customer entrusting us with their decorating, and we have decorated individual homes in Canada of which the decorating alone cost \$3,000.

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than the inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others," but its in this one particular detail that Quick & Robertson's clothes are a bit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clother which bear the Quick & Robertson label are in this one detail equal, i not superior, to made-to-measure productions which are not built under the supervision of the tailors,

Such goodness add nothing extra to the price of our clothes though its assured in every garment.

Of special interest just now are those suits of Bannockburn mix tures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and ck unsheared dothes. All exclusive tailors' fabrics. They are all fashioned in the lat-Sacque Styles and fit perfectly, that you can see for your-elf and on a man they can't be tinguished from made-to-measure garments,

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to w them. Exclusive agents for Johnston's fomous clothing.

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

Of Our Decorator

Who is capable of gadvising on all matters of interior

It will cost you nothing, will save you much anxiety and assure you of the very best decorative results at moderate cost.

It is the knowing how, when and where to introduce design and color that promates successful decorating.

The everyday CHANCE WORK that is so often termed decorating cannot be much else than disappointing to the victim who has to pay.

Our decorating is begot of a system of color and design properly combined, properly applied after correct and careful anticipation of that which is called Art Interior Decorating.

Interior Decorating means painting, coloring, tinting paperhanging, tenencing, hard wood finishing, etc, and we have a staff of workmen under a designer and decorator capable of executing better work than has heretofore been prevalent in Belleville.

Our designer will call at your home, take measurements of your rooms, submit color schemes and drawings of your indvid-ual rooms that you may see same practiculary complete.

There will need be no errors if you employ our ability, r methods and our goods, the cost will be quite as satisfactory the workmanship.

With many years experience in Wall Hangings and decorating we have yet to disappoint our first customer entrusting us with their decorating, and we have decorated individual homes in Canada of which the decorating alone cost \$3,000.

These Spring Suits for Men

Are a Bit Better than Others.

Nothing assures more satisfaction, better wear or lasting good shape in ready-to-wear or made-to-measure clothes for men than th inside work and materials.

The inside work counts most, though it can't be seen and if its not done in a thorough manner dissatisfaction is certain. There are others, but its in this one particular detail that Quick & Robertson's olothes are a hit better than others.

We are very particular, so our makers have to be, and the result is that all is not left to the journeyman tailor, but an experienced foreman carefully scrutinizes the inside work of every garment and the clothes which bear the Quick & Robertson label are in this one detail equal, if not superior, to made-to-measure productions which are not built under the supervision of the tailors.

Such goodness add nothing extra to the price of our clothes, though its assured in every garment.

Of special interest just now are those suits of Bannockburn mixtures, Overplaid Cheviots, Fine Fancy Worsteds, and plain Blue and

Black unabeared clothes. All exclusive tailors' fabrics. They are all fashioned in the lat-est Sacque Styles and fit p-recity, that you can see for yourself and on a man they can't be distinguished from made-to-measure garments.

From \$5. to \$15.

The selection is most complete, very extensive and satisfactory. You are expected to view them. Exclusive agents for Johnston's fomous clothing.

taken so as to bring the case before
the Court of Appeal.

About the time children begin to go to school they are liable to be confronted with one of two extremes -they may either grow too fast or not grow fast enough. In the former case nature makes unusual demands upon bone and blood; vital organs are overtaxed and growth continues out of proportion to their age. Here is where Scott's Emulsion finds scope for its best workings.

It nourishes the bones-the hypophosphites of lime and soda does this; it feeds and enriches the blood -this through the pure cod liver oil; it strengthens the whole system, providing firm, healthy flesh and fortifying the tissues so that they are better able to stand the extra strain upon them.

When a child is not growing as it shouldundersize, underweight, there will be found in Scott's Emulsion the very elements needed to aid in proper development.

Bone food for the bones, blood food for the blood, tissue food for the tissues-that is how Scott's Emulsion provides for each demand of the body.

· We'll send you a sample free upon request.

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "bny it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipm ent just received.

Our decorating is begot of a system of color and design properly combined, properly applied after correct and careful anticipation of that which is called Art Interior Decorating.

Interior Decorating means painting, coloring, tinting paperbanging, stapeding, hard wood finishing, etc, and we have a staff of workmen under a designer and decorator capable of executing better work than has heretofore been prevalent in Belloville.

Our designer will call at your home, take measurements of your rooms, submit color schemes and drawings of your indvid-ual rooms that you may see same practiculary complete.

There will need be no errors if you employ our ability, our methods and our goods, the cost will be quite as satisfactory as the workmanship.

With many years experience in Wall Hangings and decorating we have yet to disappoint our first customer entrusting us with their decorating, and we have decorated individual homes in Canada of which the decorating alone cost \$3,000.

You Know the Quaker Now

You know that the Quaker trademark on a package of oats means Quality that is truest Economy--the Flavor that is modest Luxury.

Quaker Oats is different from other cereals---the process, quality, flavor, nutriment-different at point where differenceevery counts.

If the merchant tries to give you the "just as good" package, you may be sure he has not much of an opinion of your intelligence.

In paying him for the "just as good" give him a button and tell him it is just as good as 10 cents.

He'll give you the good package for the good coin-that's what he wants.

Yes---and you want the best for your good money.

ARTHUR McGIE,

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know rouch about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

How? Scott's Emulsion.

Why? Because Scott's Emulsion stops the irritation, soothes the tissues and heals the affected membranes.

When? Right away: Scott's Emulsion begins to help with the first dose. Its action is quick and effective.

In a word, Scott's Emulsion cures a cough because it cures the cold.

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big ship-

Any Old Thing Won't Answer

You don't want the ordinary—the year in and year out good—don't want the same styles that have been used for ages—you don't want these parers made without thought of art or deconstion—might as well use butcher paper, might better in many instance, as the butcher paper would not present to your valion the hidrons colorings and designs that are sometimes shown.

OUR PAPERS are different from others—very different in many ways—Firstly, because each paper taking a position in our stock must have merit both in color and design—of course a 3c paper cannot have the same merit as a 30c paper, but all have a goodly share according to value.

ANOTHER SHEAT DIFFERENCE in favor of our papers is the abundant stock, the huge selection, the 100,000 rolls we ematantly keep our stock up to, over replacing with new productions.

Still a greater difference is in favor of our prices, which are, to say the least, 30 per cent. below other prices and we give borders free with our wall papers—a yard of border with who lookers free with our wall papers—a yard of boruse wall papers—a yard of boruse wall papers at the actual cost of hanging—we we dojit properly and promptly.

Physicians speak of fat food as "life food" and say that all children ought to have it in abundance. They say too, that weak, thin, nervous children must have fat food and recommend Scott's Emulsion.

It promptly returns sickly, delicate children to rosy health. It is the life of flesh-creating food and keeps the scale of child-health evenly balanced.

Being prepared for easy digestion Scott's Emulsion is readily accepted by the stomach and quickly passed into the blood. There commences at once the repairing of wasted tissues, the enrichment of the blood and the strengthening of the whole system.

Any child who needs more and better nourishment than it seems to be getting from its ordinary food will be greatly benefited if given Scott's Emulsion:

OUR FAPERS are different from others—very different in many ways—Firstly, because each paper taking a position in our stock must have ment both in color and design—of course a 5c paper cannot have the same ment as a 3cc paper but all have a goodly share according to value.

ANOTHER GREAT DIFFERENCE in favor of our papers is the abundant stock, toe bugs selection, the 100,000 rolls we constantly keep our stock up to, ever replacing with new productions. Still a greater difference is in favor of our prices, walch to say the least, 30 per cent. below other prices and we to borders free with our wall papers—a yard of border with h roll.

We hang our papers at the actual cost of hanging-we dolit properly and promptly.

ARTHUR McGIE,

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big shipment just received.

For the decorations of your home. You want the best

You don't want the ordinary—the year is ned year only goods—don't want the same styles that have been used for want the same styles that have been used for any ordinary to thought of any or decoration—might as well use botcher paper, might better in many instance, as the botcher paper would not present to your vision the hideous colorings and designs that are sometimes shown.

OUR PAPERS are different from others—very different in many ways—Firally, because each paper taking a position in our stock must lave merit both in color and design—of course a 2c paper cannot have the same merit as a 3de paper, but all have a goodly share according to value.

ANOTHER GREAT DIFFERENCE in favor of our papers is the abundant stock, tae huge selection, the 100,000 rolls we ometantly keep our stock up to, ever replacing with new productions.

Still a greater difference is in favor of our prices, which to say the least, 30 per cent. below other prices and we bordens free with our wall papers—a yard of border with

Paners For Plunger Wright.

That means a low condition of health; the body is poorly nourished and thinness follows. The system is then susceptible to disease-any one of a number of ailments finds easy access. Get plump.

How? Scott's Emulsion. Plumpness and health go together usually; it's safer to be plump anyway. And in Scott's Emul-sion there are the very elements that make new flesh and repair wasting.

We call Scott's Emulsion a food-medicine because it does so much through nourishment. When there is a loss of flesh and wasting conditions exist it is an evidence of starved tissues and nerves; flesh and blood are hungry. They want the nourishment and food principles so perfectly blended in Scott's Emulsion.

The whole body soon feels the influence of the new force and a noticeable change for the better takes place at once. That is why Scott's Emulsion is so good for those who are losing flesh or suffering from any wasting disease.

We'll send you a sample free upon request.

For scrofula, anæmia, stomach and bowel disorders, and wasting diseases, Angier's Petroleum Emulsion with Hypophosphites is prescribed by physicians. It is pleasant to take and agrees with the stomach.

It prevents and corrects dis-ordered conditions of the stomach and intestines, checks formentation, cleanses away foul mucus, destroys or coun-teracts poisonous matter in the blood, alleviates the irri-tation and heals the diseased membranes. It also aids di-gestion, improves nutrition, regulates the bowels, and helps create firm, healthy flesh. Ask your druggist for it.

A SHORT TALK

Waterproof Coats and Spring Overcoats

Many people are becoming familiar with the necessity of having a nice waterproof coat and a spring overcoat combined, but only a few know much about the quality of such a garment, except as is represented by the appearance and the price. Unless you buy from reliable dealers, it is a case of "buy it and try it," and if you get a poor article you may imagine that there is no such thing as a good waterproof coat. But such is not the case and it costs you no more to get a good garment at a good store than a poor garment at a poor store. Examine the coats we are showing; a big ship. ment just received.

Just a Word or Two

You are probably going to buy a new suit of clothes. Big black type with all sorts of claims stare you in the face just a word. Go to any or all of the other stores and scan their clothing and prices carefully. Before you make up your mind, we request that you drop in here and let us show you what your money can do.

We Will Save You Dollars

We know exactly what can be done in selling clothing, and if we can't save you money on every suit you buy, we don't ask your trade. We know what others are offering. We know ours are the best. The seams are sewn with silk, the goods are sponged and shrunk before cutting, patterns are stylish and you can depend on the wearing qualities of the cloth.

SCROFULA

Bad air, poor food, insufficient clothing, dark, damp or crowded apartments are frequent causes of scrofula. Perhaps this explains why the ailment is so common in the poorer sections of large cities. It is but a step from scrofula to consumption and herein lies the great danger. It is just as well to avoid the step.

Scott's Emulsion contains the very things that nature requires in curing scrofula. The pure Norwegian cod liver oil helps to build up the whole body and enables one to acquire new, healthy, solid flesh: The hypophosphites of lime and soda act as a tonic, replacing the waste and giving strength and new structure where it is most needed.

There is nothing that will do more good in the case of scrofula than Scott's Emulsion.

We'll send you a sample free upon request.

Consumption's **Small Beginning**

No matter how strong you imagine yourself to be, if you are not breathing plenty of good air every day, if you are over-working, keeping late hours, or in any way using up your energies faster than they are repaired, you are making it easier for consumption to come into your lungs. This is the small beginning.

Let your own good sense and your doctor prescribe your habits and the necessary medicine-For nourishment nothing will do you more good than Scott's Emulsion. It contains elements which you cannot get from ordinary food and is rich in the best materials for making good blood,

Scott's Emulsion is a wonderful food; it furnishes a great deal of nourishment though you take so little of it. That little enables the body to overcome wasting and to build up the run-down and worn-out tissues. - Moreover Scott's Emulsion is a great flesh-builder, and when the consumptive can gain flesh he is getting the upper hand.

We'll send you a sample free upon request,
